## *Our Wine, Your Occasion*

You could say we are a horse loving family. That wouldn't bother us at all—In fact, the Kautz Family has a long history riding horses and enjoying relationships with our equine partners and friends. Horses are our passion, an obsession, just like wine, and the inspiration for Leaping Horse wines.

In our humble view, there is no animal that embodies grace and power as beautifully as a horse. With that in mind, we have created Leaping Horse Pinot Grigio and Chardonnay to be elegant and Leaping Horse Red Blend, Merlot and Cabernet Sauvignon to be structured and powerful. Our approachable lineup can satisfy the palates of wine tasting novices and aficionados alike.

The Leaping Horse lineage can be traced back four generations, beginning in 1926 with John Kautz and the founding of John Kautz farms in 1948. The John Kautz Farms team employs tried-and-true techniques only experience can bring to ensure a healthy environment for generations to come.

Just as a horse needs sunshine, nourishment and open space to thrive, so do the vineyards that source Leaping Horse wines. The Kautz Family has farmed sustainably for decades, paying close attention to the land in Lodi's brilliant Mediterranean climate.

Leaping Horse is much more than an image on a label.  
It's an inspiration behind this elegant and beautiful brand of wines.
